

Quarterly Seminar Series

presents a high level one day forum to discuss

The Challenges of Information & Information Systems in Primary Care

Thursday, 27 October 2005

PROGRAMME

VENUE: Deloitte Building, 8 Nelson Street (main entrance on Wyndham Street)

Reception on Level 8. Prompt start at 8.30am

8.00am	<i>Registration and Coffee</i>
8.30am	Welcome and introductory remarks Chairman, HINZ - Seminar Sponsor - Deloitte
9.00am	Opening Address – Paul Cressey A clinical pharmacist, Paul Cressey is a board member at Counties Manukau DHB, chair of the Health Intranet Governing Body, chairman of Ronald McDonald House Auckland, and a past chairman of The Child Cancer Foundation. As former managing director of East Health Services, and a previous trustee of East Health PHO he was and continues to be actively involved in the implementation of the Primary Care Strategy. As a member of the WAVE Board, Paul is a strong advocate for health information standards that will maximise the opportunities for the delivery of better health care for the people of New Zealand, and in particular the integration of both primary and secondary care.
9.30am	Key Information Issues Confronting PHO's – Dr Inga Hunter Inga Hunter works part-time for Massey University, part time in clinical medical practice as a Medical Officer for the Sexual Health Service for MidCentral Health and, as a GP at the Massey Medical Centre. She is a fellow of Royal NZ College of General Practitioners and holds a Master of Philosophy in Information Systems. Inga is a member of the IT working Group for the RNZCGP. She has presented at the RNZCGP, HIC and HINZ annual conferences on health informatics issues relevant to primary care, in particular to general practice.
10.00am	<i>Morning Tea</i>
10.15am	Maximising Health Outcomes via DHB/PHO Data Sharing – Dr Jocelyn Tracey Jocelyn Tracey is a general practitioner with over two decades of experience within primary care, and of integration between primary and secondary care. Her experience includes strategic planning, quality planning, health needs analyses, development of new clinical projects and services, research and evaluation, provision of continuing medical education (CME), clinical project management and chronic disease management. Jocelyn is a GP in a medical practice that is a member of a PHO in West Auckland.
10.45am	PHO Performance Management Programme – Tracey Barron Tracey Barron is the Strategy Manager for the PHO Performance Management Programme. In this role Tracey is responsible for overseeing the development of the programme including the national indicator set and communications to the sector. In addition, she is responsible for leading the development and management of a national laboratory analysis, feedback and best practice contract. Prior to Tracey's appointment to DHBNZ she was employed within the Demand Side team at PHARMAC and as education manager at Pegasus Health. She holds qualifications in clinical pharmacy and management.
